## ABOUT

I have worked as a Manual QA Engineer for 3 years. Of these, for 2 years, in addition to manual testing, I was engaged in automating games and routine work tasks, using Python. Through this experience, I discovered a passion for programming. I strive to constantly improve my technical skills, to solve problems more effectively.

## SKILLS

Python, Django, PostgreSQL, SQL, Git, Github actions, Docker, TeamCity

## WORK EXPERIENCE

**Playrix**                                              **06 2020 - 04 2023**
*Test analyst*                                          *Russia, Petrozavodsk*
